EDUCATION

DIPLOMA OF IT

OCT 2021 - Aug 2022

Coder Academy (AIT)

SUMMARY

I am a junior full-stack developer having just completed studying web application development and relational database management at Coder Academy. I have strong creative and analytical skills and am a team player with an eye for detail. I'm looking for a fun and challenging role where my contributions can make a difference.

PROJECTS

CRAFTY-TUKKA

Full-Stack React Application

2022 (5 week Coder Academy assignment)

- Event organiser for Breweries and Food Trucks featuring google maps integration.
- I collaborated with 1 other developer on this project.
- Tech stack - React(routes, hooks, global context), Material UI, Rails, PostgreSQL, AWS S3, Axios, Google Maps API, Places API, Heroku, Vercel, Rspec, Jest, Notion.

PAYPROOF

Full-stack Rails Marketplace Application

2022 (3 week Coder Academy assignment)

- Provides customer proof-of-funds for a tradie before they begin the job to help filter non-paying customers.
- Tech stack - Ruby, ERB, HTML, CSS, Bootstrap, Sass, PostgreSQL, Heroku, Amazon S3, Github and Notion.
